Welcome to e-FoodIngredients.com
Featuring the patented IExchange™
for the most industry-appropriate,
Secure way to
BUY and SELL

FOOD INGREDIENTS
Buyers/Sellers list products by classification, characteristics and certifications.

IExchange™ - "real-time" buy/sell - Initiate, specify, target, negotiate and close transactions with other members via our neutral and secure global 'online trading community.' Our patented technology enables you to streamline transactions without compromising security. Reference My e-FoodIngredients to identify average industry pricing by volume and region, among others.

IExchange™ - reverse auction buy/sell - Leverage your volume and commodity transactions by listing with our patented downward-pressured, pricing reverse auction. Set your bidding event by product, time allotments and current asking price. Reference My e-FoodIngredients to identify average industry pricing by volume and region, among others.

My e-FoodIngredients.com - Keep track of your past transactions with INGREDEX™. You can also store all your electronically transferred certificates for immediate access. Product recalls demand quick proof of certification. Minimize your liability by filing requested certifications immediately with INGREDEX™.
